get tagged

You can print this page and scan the specimen tag below with your smart phone to see how **Smart-Tags** work in real life, or you can simply scan the QR code from your computer screen, either way will work!

If viewed at **100%** this specimen tag is the same size as an actual tag.

If you don't already have a QR code reader on your smart phone there are various free apps available on the web - we can suggest the following:

For iPhone users

Firefox users - if the link doesn't work go to <http://tinyurl.com/a5w79ak>

For Android users

Firefox users - if the link doesn't work go to <http://tinyurl.com/klv3exn>

For Windows phone users

Firefox users - if the link doesn't work go to <http://tinyurl.com/klv3exn>

If you prefer you can simply [click on this link](#) and enter the tag code **TTVYSX** to see how it works via a web browser.

Firefox users - if the link doesn't work go to <https://smart-tags.eu/found>
